Curriculum Intent Statement

Health & Social Care

<p>Whole School Curriculum Intent Statement</p>	<p>The MFG's seven-year curriculum:</p> <ul style="list-style-type: none"> - is constructed around RITA values to enhance character and cultural capital. - is coherently sequenced to build knowledge and skills for future learning and employment. - is challenging and inclusive to meet the personal development needs of all students. - explicitly teaches vocabulary, oracy, and reading to ensure lifelong learners.
<p>Subject Curriculum Intent Statement</p>	<p>In health and social care we aim to promote a challenging and inclusive classroom environment where we promote equality and diversity within a purposeful and well sequenced curriculum. Our focus through KS4 and KS5 is to challenge at an appropriate level and incorporate the development of the core 6Cs in health care: care; compassion; courage; competence; commitment & communication. These are integral to all aspects of our vocational curriculum and ultimately link to the development of the skills needed when working in health and social care environments.</p> <p>Students are encouraged to build on their academic knowledge and skills through practical application. Work placement opportunities at KS5 further encourage personal development to support future learning and employment opportunities.</p>
<p>Subject Curriculum Quote</p>	<p>"Health is a state of complete physical, mental and social well-being, not merely the absence of disease or infirmity." World Health Organisation</p>
