Curriculum Intent Statement

Psychology

<p>Whole School Curriculum Intent Statement</p>	<p>The MFG's seven-year curriculum:</p> <ul style="list-style-type: none"> - is constructed around RITA values to enhance character and cultural capital. - is coherently sequenced to build knowledge and skills for future learning and employment. - is challenging and inclusive to meet the personal development needs of all students. - explicitly teaches vocabulary, oracy, and reading to ensure lifelong learners.
<p>Subject Curriculum Intent Statement</p>	<p>Through studying Psychology students will broaden their understanding of the world around them and what makes people 'tick'. Students will develop cultural capital by fostering an appreciation of other cultures and learn to accept behaviour that differs from our own, thereby promoting diversity and inclusivity in an ever-changing world.</p> <p>Learning is coherently sequenced to build recall of knowledge but also the development of many practical skills needed for the world of work, we encourage students to gain 'hands on experience', to re-enact experiments, and to conduct their own research.</p> <p>Our inclusive curriculum is tailored to meet the needs of all learners: and designed to encourage reading and independent learning so that vocabulary is developed. Interleaving is crucial within all topics and the use of clear and subject specific vocabulary enhances learning for all.</p>
<p>Subject Curriculum Quote</p>	<p>"Human beings can alter their lives by altering their attitudes of mind." William James. Psychologist.</p>
