Curriculum Intent Statement

Science

| | |
|---|--|
| <p>Whole School Curriculum Intent Statement</p> | <p>The MFG's seven-year curriculum:</p> <ul style="list-style-type: none"> - is constructed around RITA values to enhance character and cultural capital. - is coherently sequenced to build knowledge and skills for future learning and employment. - is challenging and inclusive to meet the personal development needs of all students. - explicitly teaches vocabulary, oracy, and reading to ensure lifelong learners. |
| <p>Subject Curriculum Intent Statement</p> | <p>To Provide a Scientific Curriculum for all, that develops a respect for our world and universe, and cultural beliefs that is inclusive and enables an understanding of how scientists work. We work in teams that show RITA values, but we also challenge scientific models and theories, helping us to become modern citizens in a Scientific world. This is done through a spiralsed curriculum that develops literacy skills, oracy and practical skills which will result in MFG students becoming informed individuals.</p> |
