		responsibilities may be; practical (cleaning, cooking, shopping), emotional (calming someone down, encouraging someone to do things, supporting someone to feel happier), personal (feeding, bathing, dressing). These tasks are above and beyond what a child their age would be expected to do. Many young carers cope really well and can actually benefit from their role but when the caring role does impact, we can help. The service provides assessed 1:1 and group support to young carers aged 8 -17. We will also look at if there are other services available to help the young carer and the person with the illness/disability. Our work with young carers aims to reduce or remove the impacts faced due to the caring role.
